NOTIFICATION.

Coimbatore, October 2, 1913.

No. 68.—In accordance with the provisions of section 18 (1) and (3) of the Indian Explosives Act IV of 1884, and in supersession of Notification No. 36, dated 19th July 1912, published on pages 739–742 of Part I of the *Fort St. George Gazette*, dated the 23rd July 1912, the following draft rules to regulate the landing and shipment of explosives at the port of Madras are published for the information of persons likely to be affected thereby and notice is hereby given that the draft will be taken into consideration on or after the 15th November 1913:—

DRAFT RULES FOR REGULATING THE LANDING AND SHIPMENT OF EXPLOSIVES AT THE PORT OF MADRAS.

Classification.

The classification of explosives referred to in these rules is that laid down in Government of India, Department of Commerce and Industry, Notification No. 455-4, dated the 31st May 1907, as amended by Notification No. 4896–I, dated the 9th July 1910. The rules to regulate the transport of explosives made by the Governor-General in Council, published under the notification just referred to, shall, subject to the following rules, apply to the transport of explosives—other than those mentioned in section 14 of the Indian Explosives Act IV of 1884—within the limits of the port of Madras:—

The ship-master's duty.

Rule (*a*).—The master of any vessel arriving at the port of Madras with explosives on board as cargo shall give immediate notice thereof to the pilot, or harbour master, who shall come on board such vessel.

Duty of those interested in cargo arriving.

Rule (*b*).—The agents of any vessel expected to arrive at the port of Madras and known to have explosives on board as cargo, and the consignee or consignees of, and other person or persons interested in, such explosives so expected to arrive by any vessel at the port, shall give notice of the fact of such explosives being on board such vessel to the Chairman of the Port Trust Board not less than 48 hours before the arrival of such vessel.

Duty of those interested in cargo for shipment.

Rule (*c*).—The agents or consignor or consignors of, or other person or persons interested in, any explosives intended to be shipped as cargo on board any vessel in the port of Madras shall give notice to the Chairman of the Port Trust Board of his or their intention to ship such explosives by such vessel, 48 hours before any such explosives shall be shipped.

The character of the notice prescribed in rules (*b*) and (*c*).

Rule (*d*).—Every such notice shall be in writing and shall contain a statement showing the quantities and nature of the explosives to be landed at, or shipped from, Madras or to be landed for reshipment, and specifying, in the case of shipment or reshipment the port or ports for which such explosives are intended.

Obligation of the Port Trust.

Rule (*e*).—Upon receipt of any such notice, the Chairman of the Port Trust Board shall depute an officer to take charge of such explosives at the place where they are to be landed, and until they shall have been removed from the Board's premises for deposit in the magazine on shore appointed for that purpose; or in cases where explosives are to be exported, until they shall have been shipped in the vessel named in such notice.

Explosives necessitating the use of outside moorings.

Rule (*f*).—Vessels carrying explosives of the undermentioned classes shall be berthed at an outside mooring:—

Class 1, Gunpowder, exceeding 6,000 lb. in weight;
" 2, Nitrate-mixture, exceeding 6,000 lb. in weight;
" 3, Nitro-compound, Division 1, except cordite not exceeding 6,000 lb. in weight;
" 3, Nitro-compound, Division 2, except—
(*a*) Guncotton, wet;
(*b*) Schultz's and E.C. powder, and other sporting explosives of this class in lines not exceeding 5 lb. in weight each, subject to a limit of 6,000 lb. by any one vessel;
" 6, Ammunition, Divisions 2 and 3;
" 7, Division 2, manufactured fire-works.

Such vessels may, however, be allowed to enter the harbour, provided that the explosives are contained in a properly-constructed magazine and provided such magazine is kept closed while the vessel is inside the harbour.

Explanation.—"Properly-constructed magazine" for the purpose of this and the following rules means and includes a magazine fitted with flooding valves, light rooms, ventilators, and in every respect similar to those constructed in vessels of the Royal Navy and Royal Indian Marine according to the Admiralty specifications, and surveyed by any Government surveyor in England or approved by the Deputy Conservator of the Port of Madras.

EXPLOSIVES WHICH MAY BE HANDLED WITHIN THE HARBOUR.

Rule (g).—Vessels carrying explosives of the undermentioned classes, intended for discharge at Madras, may be moored inside the harbour, provided such explosives are contained in a properly-constructed magazine; and the explosives may be carried by lighter between vessel's side and places on the harbour structure allotted for the purpose from time to time by the Port Trust Board:—

Class 1, Gunpowder, not exceeding 6,000 lb in weight;
" 2, Nitrate-mixture, not exceeding 6,000 lb. in weight;
" 3, Nitro-compound, Division 1, cordite, not exceeding 6,000 lb. in weight;
" 3, Nitro-compound, Division 2—
(a) Guncotton, wet;
(b) Schultz's and E.C. powder and other sporting explosives of this class in tins not exceeding 5 lb. in weight each, subject to a limit of 6,000 lb. by any one vessel;
" 6, Ammunition, Division 1.

UNRESTRICTED EXPLOSIVES.

Rule (h).—Explosives comprising the first two items of Division 1 of Class 6, namely, safety cartridges and safety fuses for blasting, may be treated in all respects like ordinary combustible cargo. They need not be kept in a magazine while on board ship within the harbour, and may be landed or shipped at any place indicated by the Port Trust Board for the handling of combustibles.

DISCHARGING THE EXPLOSIVES DEALT WITH IN RULE (*f*).

Rule (i).—Vessels referred to in rule (*f*), when discharging their explosives, must be moored outside the harbour entrance, at one of the outside berths, at anchor, or otherwise as the Port Trust Board may direct. Lighters carrying the explosives of vessels so moored may discharge only at such point or points as the Board may direct—ordinarily at a place outside the enclosed harbour. In the event of a vessel arriving in rough weather, when in the opinion of the Chairman of the Port Trust Board the discharge of explosives at one of the outside berths would be attended by danger, he may give special permission to discharge the explosives at a berth inside the harbour and to land them at such places and under such conditions as he may see fit to direct.

SHIPPING THE EXPLOSIVES DEALT WITH IN RULE (*f*).

Rule (j).—The explosives referred to in rule (*f*) must be shipped or transhipped at one of the outside berths, but may only be loaded into boats at places indicated by the Port Trust Board and under such conditions as the Chairman of the Board may see fit to impose.

EXPLOSIVES INTENDED FOR OTHER PORTS THAN MADRAS.

Rule (k).—Vessels carrying explosives of the following classes, intended for discharge elsewhere than at Madras, may enter the harbour, provided that such explosives are contained in a properly constructed magazine as defined in rule (*f*) and provided that such magazine is kept closed while the vessel is inside the harbour:—

Class 1, Gunpowder class.
" 3, Nitro-compound class.
" 6, Ammunition class.

SMALL QUANTITIES OF EXPLOSIVES.

Rule (l).—Nothing in rules (*f*) to (*k*) shall apply to a vessel carrying explosives of a less weight than 25 lb. in all.

SEPARATION OF CERTAIN CLASSES OF EXPLOSIVES.

Rule (m).—Any explosive of the 5th (Fulminate) class, or any explosive of the 6th (Ammunition) class which contains its own means of ignition, or any explosive of the 7th (Fireworks) class, shall not be conveyed in any ship or boat with any explosive not of the class and division to which it belongs, unless it be separated therefrom to prevent any fire or explosion which may take place on any such explosive being communicated to the other explosives.

EXPLOSIVES EXCLUDED FROM THE HARBOUR ABSOLUTELY.

Rule (n).—The following explosives are absolutely excluded from the harbour:—

Class 4, Chlorate mixture;
" 5, Fulminate;
" 7, Fireworks, Division 1.

SIGNALS AND PRECAUTIONS WHILE AT THE PORT.

Rule (o).—Whilst any explosives remain on board any vessel at the port of Madras, whether outside or inside the harbour, a red flag shall be kept flying at the foremast head between sunrise and sunset and the port signal provided for the purpose, viz., a white light over three red lights hoisted in a vertical line one over the other not less than three feet apart, between sunset and sunrise. The master or chief officer shall remain on board until the explosives intended for Madras shall have been discharged. Every ship or steamer in the harbour carrying explosives shall be moored at a distance of not less than fifty yards from every other ship or steamer in the harbour.

PRECAUTIONS AGAINST SPARKING.

Rule (p).—The master of every vessel receiving or discharging explosives shall see that the platform in the vessel's hold to be used in receiving or delivering such explosives, and the gangways and coamings of the hatchways of such vessels, are covered with tanned hides or other suitable paddings, that the barrels or boxes containing any such explosives and removed on board any such vessel are carefully stowed therein, that the hatches of such vessels are properly secured and locked, and that the key of the magazine in which any such explosives may be stowed remains in his own possession. All persons concerned in the handling, or in supervising the handling, of any such barrels or boxes of explosives shall wear suitable shoes without any metal nails or other metal in or upon them, or shall wear no shoes.

PRECAUTIONS ON LIGHTERS, BARGES AND BOATS.

Rule (q).—Barges, lighters and boats about to be used for the transport of any explosives shall be kept scrupulously clean and free from loose explosives, and shall not, when at anchor with explosives on board, lie closer than one cable's length or 200 yards from any of the shipping in the port or from any public landing place, and all explosives in any such barges, lighters or boats shall be securely covered with tarpaulins. Whilst any such explosives shall remain on board, a red flag shall be kept flying on every such barge, lighter or boat between sunrise and sunset and, in addition to the regulation anchor-light, a red light in an elevated position shall be shown from any such barge, lighter or boat between sunset and sunrise. No fires, smoking or matches shall be allowed on board any such barge, lighter or boat, nor any light of any kind except the red light mentioned above—except in the case of properly-decked barges on the deck of which may be allowed one lantern of good pattern. Kerosene or other easily ignited oil is not to be used for the above-mentioned lights. The tindal and at least half of the crew of every such barge, lighter or boat shall remain on board until all its explosives shall have been discharged.

CONDITIONS FOR LANDING FROM BOATS AT THE APPOINTED PLACES.

Rule (r).—All barges, lighters and boats, having explosives on board to be landed at any of the landing places appointed by the Port Trust Board, shall remain off those places until orders to approach shall be received from the officer directing the landing. Not more than two boats, or at the discretion of the officer directing the discharge four boats, shall unload simultaneously.

PRECAUTIONS ON THE VESSEL WHILST EXPLOSIVES ARE BEING LANDED OR SHIPPED.

Rule (s).—Explosives which may be landed or shipped inside the harbour under rule (q), if properly packed as required by rule 9 of the rules issued by the Governor-General in Council under section 5 of the Indian Explosives Act, 1884, may be shipped on board, or discharged from, a vessel lying at the ordinary moorings within the harbour. Such shipment or discharge shall be effected under the precautions and conditions mentioned and contained in those rules, and such explosives must be taken on board the vessel for which they are intended immediately after the boat carrying such explosives has come alongside. No cargo boat or other vessel having fire on board shall be allowed to lie nearer than one cable's length or 200 yards from such vessel during the time that any explosives are being shipped. All other cargo work on board such vessel shall be stopped while such shipment or discharge is taking place.

PRECAUTIONS IN THE MATTER OF FIRE.

Rule (t).—When explosives—other than those mentioned in class 6, division 1, of the rules made by the Governor-General in Council under section 5 of the Indian Explosives Act, 1884—are shipped or discharged within the Madras port limits, no smoking of tobacco will be permitted on board the vessel on which they are being shipped or from which they are being discharged and all fires and lights on board shall be extinguished before the barge, lighter or boat bringing such explosives for shipment, or receiving such explosives to be landed, shall come alongside of such vessel. In the case of a steamer, should it be necessary that the fires in her engine-room should remain lighted, the barge, lighter or boat so bringing or receiving such explosives shall be placed to the windward of the steamer's funnel, and in the event of the steamer swinging, such explosives must be covered with tarpaulins until such barge, lighter or boat is removed to a safe and proper position.

HOURS OF MOORING.

Rule (u).—No explosives other than those mentioned in class 6, division 1, of the rules made by the Governor-General in Council under section 5 of the Indian Explosives Act, 1884, shall be discharged from a ship or may be shipped from the shore before 6-30 A.M. or after 4 P.M.

RESTRICTIONS ON THE OPENING OF MAGAZINES.

Rule (*v*).—Except in cases of emergency no magazine on board of any vessel containing explosives, other than safety fuzes, safety cartridges and caps, shall be opened while the ship is inside the harbour, without the permission of the Port Trust Board. But if such magazine should be opened and, in the opinion of the Board, the emergency was not such as to justify the master of the vessel in opening it or allowing it to be opened, he shall be deemed to have contravened this rule. Such magazine shall remain open only for the time required to remove or stow explosives, and that operation shall always be performed in the presence of an officer of the ship.

PASSAGE OF EXPLOSIVES THROUGH HARBOUR PREMISES.

Rule (*w*).—So far as they are applicable, the Government of India rules numbered 11 to 13, headed "Mode of conveyance," as laid down in Department of Commerce and Industry Notification No. 4565—4, dated 31st May 1907 (or as modified by subsequent notifications), shall apply to the conveyance of explosives through Madras harbour premises, whether by boat, by cart or by rail.

FINE FOR CONTRAVENTION OF RULES.

Rule (*x*).—If any person shall contravene any of the foregoing rules, he shall, on conviction by a Magistrate, be punished with fine which may extend to one thousand rupees.

RESOLUTION.—In supersession of the rules published with Resolution Nos 18—17—2, dated the 20th May 1909, the Governor-General in Council is pleased to prescribe the following rules for regulating the grant by Local Governments of licenses to prospect for minerals and the grant of mining leases in British India :—

Rules for the grant by Local Governments of Licenses to prospect for Minerals and of Mining Leases in British India.

The following rules regulating the grant by Local Governments of licenses to prospect for minerals and the grant of leases of mines and minerals have been made by the Governor-General in Council, and sanctioned by the Secretary of State for India in Council.

PART I.—GENERAL.

1. No license to prospect for minerals or lease of mines and minerals can be granted by any Local Government otherwise than in accordance with these rules, except with the previous sanction of the Secretary of State for India in Council, or with that of the Governor-General in Council under any general or special authority which he may have received in this behalf from the Secretary of State in Council.

2. In these rules :—

5. Nothing in these rules shall apply to minor minerals such as slate, building stone, limestone and clay, the extraction of which will continue to be regulated by such separate rules as the Local Government may lay down in accordance with local circumstances and requirements

6. The issue of exploring licenses authorising the surface of land to be searched for minerals having been discontinued, the surface of unoccupied and unreserved land which is the property of Government may be freely searched without authority. In the case of occupied land search can be made only with the consent of the occupier

Provided that in the case of Baluchistan and the North-West Frontier Province, no operations for the exploration of the surface of land for minerals shall be carried on, except under a license granted on such terms as the Local Administration may prescribe.

Provided that the Collector may at his discretion dispense with such survey, if the boundaries of the area applied for conform to boundaries already ascertained in a Government survey, *e.g.*, the boundaries of survey numbers in a revenue survey.

19. On receipt of any application under rule 16 or rule 18 the Collector, or such officer as he may authorise to do so, shall note thereon the date and hour of its receipt, and shall deliver to the applicant an acknowledgment stating the date and hour of receipt.

25. Subject to such deduction on account of compensation for surface damage, penalty, or otherwise as the Collector may order, the amount of any deposit made under the foregoing rule, should the depositor afterwards be granted a mining lease, will be carried to his credit as part of the rents, royalties or deposit money payable under the lease. Or should he decline to receive or fail to obtain any such lease as aforesaid, the amount will be returned to him on his satisfying the Collector that the condition in rule 30 (*xiii*) has been complied with and on his furnishing the Collector with the information required by rule 33.

26. If a license is not executed within three months after leave has been granted for it, the right of the applicant to such license shall be held to have lapsed, unless the Local Government, for special reasons, consents to grant the same notwithstanding the delay or considers that the delay is not attributable to the applicant.

The license may be renewed by the Collector for a further term not exceeding two years, whenever he is satisfied that a longer period than one year is required in order to enable the licensee to complete his search of the land:

The term for which a mining lease may be granted shall not exceed 30 years but the lease may contain a clause permitting renewal for a period not exceeding 30 years, on a dead and surface rent not exceeding twice the original dead and surface rent respectively, the royalty payable being that which may on the day next following that on which the original lease shall determine, be in force under the orders of competent authority.

50. Every mining lease shall contain such conditions and stipulations as the Local Government may in each case consider necessary, and shall in every case contain the following conditions, namely:—

(*i*) The lessee shall pay a royalty or royalties at the rate specified in the lease, which rate or rates shall be those fixed for the particular mineral or minerals in Schedule A in Part IV of these rules; and if any other mineral shall be discovered by him, then the royalty shall be paid therefor at such rate, not being less than 20 per cent. of the value thereof, as the Local Government may determine, until a mining lease has been obtained in respect of such mineral; but the lessee shall be entitled within twelve months from the discovery of such mineral to require and obtain such lease for the term then unexpired of his original lease; provided that, if he declines to take a lease as above provided, the Local Government may give a lease in respect of such mineral to any other person.

(ii) The lessee shall also pay for every year after the first year, a fixed yearly dead rent at a rate not less than that laid down in Schedule C in Part IV of these rules; provided that no lessee shall pay both royalty and dead rent in respect of the same lease, but only such one of them as may be of the greater amount.

(iii) The lessee shall also pay for all land which he may take up, use, or occupy for the purpose of the mine a surface rent at the rate specified in Schedule D.

(iv) The lessee shall at his own expense erect and at all times maintain and keep in repair boundary marks and pillars according to the demarcation to be shown on a plan annexed to the lease.

(v) The lessee shall make and pay such reasonable satisfaction and compensation, as may be assessed by lawful authority in accordance with the law in force on the subject applying to the lands over which the lease has been granted, for all damage, injury or disturbance which may be done by him in exercise of the powers granted by the lease, and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage, injury or disturbance.

NOTE.—The powers necessary for the proper enjoyment of minerals, the property of Government, together with the methods according to which such powers are to be exercised by Government or by its assignees, are governed by the law for the time being in force in each province. Where the law confers such powers on the Local Government or its assignees, the Local Government may make local rules indicating the conditions on which lessees shall have right of access to minerals, the right to use of water in connection with the working thereof, and the like.

(vi) The lessee shall not cut or injure any tree reserved to the lessor.

(vii) The lessee shall have power to assign his lease or transfer any right or interest thereunder to a person holding a valid certificate of approval subject to the following conditions:—

(a) No such assignment to transfer shall be made in favour of any person who, by himself or by those joint in interest with him, already holds a mining lease or leases which is or are, or which with the addition of the area now proposed for assignment or transfer will be over ten square miles within the territories administered by the Local Government within whose jurisdiction the land lies for which the lease has been granted. The actual position of the transferee in this matter, if not known to the lessee, should be ascertained from the Local Government.

(b) Every such assignment or transfer shall be reported to the Collector within one calendar month from the date of its completion, together with full particulars of the transaction.

(c) Every such assignment or transfer shall within a further period of two months be registered in the office of the Collector on payment of a fee of Rs. 50:

Provided that in the case of any particular mineral reserved by order of the Governor General in Council, the previous sanction of the Local Government to the assignment or transfer shall be required.

The minerals reserved at present are petroleum, chromite and ores of manganese, vanadium, molybdenum, nickel and tungsten:

Provided also that in the North West Frontier Province and Baluchistan, no transfer or assignment in the case of any mineral whatever may be made without the consent of the Agent to the Governor-General and Chief Commissioner.

(viii) Unless prevented by reasonable cause of which the Local Government shall be the judge, the lessee shall commence operations within one year from the date of the execution of the lease and shall thereafter carry them on effectually in a proper, skilful and miner-like manner. Should the lessee cease without such cause to work the mine for a period exceeding two years in such a manner as to produce sufficient mineral to earn a royalty at least equal to the dead rent, it shall be deemed a breach of this condition.

NOTE.—For the purpose of the first part of this condition, such measures as the sectional machinery for the purposes of working the mine, although not necessarily on the land covered by the lease, or the construction of roads or tramways in connection with the mine, shall be deemed to be sufficient compliance with the requirement of commencing operations.

(ix) The lessee shall keep correct accounts showing the quantity and particulars of all minerals obtained from the mine and the number of persons employed therein, and also complete plans of the mine, and shall allow any officer authorised by the Local Government in that behalf at any time to examine such accounts and plans, and shall furnish the Local Government with such information and returns in respect of the aforesaid matter as it may prescribe.

(x) The lessee shall allow existing and future licensees or lease-holders of any land which is comprised in or adjoins or is reached by the land held by the lessee, reasonable facilities of access thereto.

(xi) The lessee shall allow any officer authorised by the Local Government in that behalf to enter upon the premises comprised in the lease for the purpose of inspecting the same.

(xii) The lessee shall without delay report to the Collector the discovery on or within any of the lands or mines demised by the lease of any mineral not specified in the lease.

(xiii) Should the royalty or rent reserved or made payable by the lease be not paid within two months next after the date fixed in the lease for the payment of the same, the Local Government may enter upon the said premises and distrain all or any of the minerals or moveable property thereon, and may order the sale of the property so distrained or so much of it as will suffice for the satisfaction of the rent or royalty due and all costs and expenses occasioned by the non-payment thereof; and, if any royalty or rent remain at any time unpaid for six calendar months after the date on which it is due, the Local Government may determine the lease and take possession of the premises comprised therein.

(xix) In case of any breach on the part of the lessee of any covenant or condition contained in the lease, the Local Government may determine the lease and take possession of the said premises; or, in the alternative, may accept payment of a penalty, not exceeding twice the amount of the annual dead rent, from the lessee.

(xx) At the end or sooner determination of the lease, the lessee shall deliver up the said premises and all mines (if any) dug therein in a proper and workmanlike state, save in respect of any working as to which the Local Government may have sanctioned abandonment.

(xxi) Should any question or dispute arise regarding the lease or any matter or thing connected with the mines and minerals leased or the working or non-working thereof or the amount or payment of the royalty or rent reserved or made payable by the lease, the matter in difference shall be decided by the Local Government, whose decision thereon shall be final.

51. All operations conducted under the authority of these rules within a reserved or protected forest shall be subject to such conditions as the Local Government may by general or special order from time to time prescribe. It shall be a condition of every lease granted under these rules that before the commencement of work within a reserved or protected forest, 30 days' notice shall be given to the District Forest Officer of the intention to commence operations, and that the operations shall be conducted subject to any conditions regarding the use of fire that he may prescribe.

52. Every mining lease which includes any portion of a reserved or protected forest shall, if it authorises the lessee to fell timber for mining purposes, specify the area within which, or the quantity up to which, and the terms and conditions upon which, he may exercise that authority.

53. No lease of a mine of precious stones shall be granted except by the Governor-General in Council. The procedure for obtaining, and the conditions of, such lease shall be those prescribed by rules 34 to 50, read as if the Governor General in Council were substituted for the Local Government.

54. The lessee shall be at liberty to determine the lease at any time on giving not less than twelve calendar months' notice in writing to the Collector: and upon the expiration of such notice, provided that all sums due on account of the lease shall have been paid, the lease shall be determined. Where a lessee exercises his option of determining a lease, he shall not be granted subsequently a new lease over a portion only of the land covered by the original lease.

8. *Purchase.*—The local authority may at any time after the expiration of a period of fifty years from the date of this order, exercise the powers of purchase contained in the Act. Whenever the powers of purchase contained in the Act shall be exercised by the local authority, the amount to be paid to the promoters for the tramway shall be equal to the then value thereof, which value shall be taken as being equal to twenty-five times the average annual net earnings of the tramway for the last five completed years previous to the date of purchase subject to a minimum of 10 and a maximum of 12½ per cent of the capital outlay, and the purchase money shall be paid to the promoters, their legal representatives or their assignees in Madras in the standard currency of India at the time of purchase.

GOVERNMENT EXAMINATIONS.

SPECIAL TEST EXAMINATIONS, OCTOBER 1913.

NOTICE TO CANDIDATES FOR THE PRÉCIS WRITING TEST.

The following instructions are published in order that candidates may know what is expected of them in this test :—

Instructions to candidates.

The object of a précis is that any one who has not time to read the original correspondence may by reading the précis, be put in possession of all the leading features of what passed.

2. The candidate should begin by reading the whole of the correspondence carefully through without writing anything, so that he may clearly understand what passed and be in a position to decide what are the main heads under which the important facts should be arranged. He should then read through the paper again marking what is important.

3. The précis should begin with a brief and lucid introduction to the subject under treatment. This should be followed by a narrative in the past tense containing a brief and clear statement of the contents of the correspondence, *not* in the order of the papers nor even necessarily in chronological order, but in *logical* order. An abstract of *every* paper in the correspondence or an index of its contents is not a précis.

4. The merits of a précis are—

(1) to contain all that is important in the correspondence and nothing that is unimportant;
(2) to present this in a readable and consecutive shape, expressed as intelligibly and distinctly as possible;
(3) to be as brief as is compatible with completeness and clearness;
(4) to present a strictly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who omits any one of the more important points; marks will be deducted if unimportant points are included or if facts are repeated unnecessarily; *e.g.*, it is not ordinarily necessary to give the date of every paper in the correspondence and the full name and designation of the writer or recipient of every letter; and if a fact is repeated in different papers it need not generally be noted more than once in the précis.

5. Grammar, spelling, style and handwriting will be considered in assigning marks; but it must be remembered that mere excellence in composition will not compensate for inaccuracy or incompleteness in the presentation of the facts of the correspondence.

THE MADRAS VETERINARY COLLEGE PROSPECTUS.

As there appears reason to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the provincial and the subordinate veterinary service are liable to be altered if need requires at any time.

1. The College affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Board or private employers. The staff of the College consists of a Principal, an Assistant Principal, three lecturers and a subordinate establishment. The responsibility for the discipline and management of the College is vested in the Principal who is subject to the control of Board of Revenue. Full clinical and other facilities are afforded to meet the educative requirements of students preparing for the diploma in Veterinary Science. A veterinary hospital, museum, library, shoeing forge and students' hostel are attached to the College.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the College is desired. Students are admitted to the college by selection which will be made by the Principal. Applications for admission should be made in writing in the prescribed form printed at the end, and they should be submitted so as to reach the Principal not later than the 5th December of each year and should be accompanied by the following certificates:—

(*a*) of age,
(*b*) of physical fitness and moral character,
(*c*) that the applicant has passed the Matriculation examination of an Indian University, or that he has obtained 45 per cent. of marks in English and 35 per cent in other subjects in the School Final examination, except in the case of Europeans and Eurasians who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when and the place at which, he should present himself for personal selection. Candidates when admitted will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

In such case the contractor will not only forfeit the deposit already furnished by him but will also be liable for any loss accruing by such resale. OF

THE FORT ST. GEORGE GAZETTE.

No. 39.] MADRAS, TUESDAY EVENING, OCTOBER 7, 1913. [Price, 1 anna.

AUDIT ORDER OF THE MADRAS CENTRAL URBAN BANK LIMITED BY THE HON'BLE DIWAN BAHADUR L. D. SWAMIKANNU PILLAI AVARGAL, M.A., B.L., LL.B., REGISTRAR OF CO-OPERATIVE SOCIETIES, FOR THE YEAR 1912-1913.

The accounts of the Madras Central Urban Bank, Limited, for the year ending 30th June 1913, have been audited in detail by the Assistant Registrar M.R.Ry. A. Vedachalam Ayyar Avargal, B.A. Statements showing (1) Receipts and Disbursements, (2) Profit and Loss for the year and (3) Balance sheet on 30th June 1913, have been furnished by him.

2. During the year under review, the Bank earned a net profit of Rs 52,090-4-7. Under by-law No. 17 of the Bank, three-eighths of the net profits, viz., Rs 19,533-13-9, should be carried to the credit of the reserve fund. The Bank is requested to invest this sum in the Bank of Madras, Madras. With this amount the total reserve of the Bank will amount to Rs. 61,533-13-9. The remaining five-eighths, viz., Rs. 32,556-6-10, will be available for distribution as dividend, bonus or otherwise as the Bank may decide.

3. Notwithstanding the small number of societies registered during the year under review, which affected the transactions of the Madras Central Bank as well as of other Central Banks, the transactions of the Bank increased. The deposits held by the Bank (including the overdrafts from the Madras and Indian Banks) rose from Rs. 18·99 lakhs on 30th June 1912 to Rs. 22·16 lakhs on 30th June 1913. The interest paid on borrowings during the year was Rs. 1·09 lakhs against Rs 0·73 lakh in the previous year. The amount of loans due from societies and members was Rs. 23·81 lakhs on the last day of the year 1912-1913 against Rs. 20·91 lakhs on the last day of the previous year. The total amount repaid by societies during the year towards the principal of loans advanced by the Central Bank was Rs 3·60 lakhs against Rs 2·17 lakhs in the previous year. This fact, to a certain extent, accounts for the decrease in the amount of overdue loans pending recovery on the last day of the year, which was Rs. 1·89 lakhs against Rs. 2·79 lakhs on 30th June 1912. Under net profit there was an increase of 23·6 per cent. The penal interest collected during the year was Rs. 673 against Rs. 392 in the previous year. The latter amount was collected as penalty on outstanding loans to the amount of Rs. 14·13 lakhs at the beginning of 1911-1912, while the former was charged on outstanding loans amounting to Rs. 20·63 lakhs at the beginning of 1912-1913.

4. The attention of the Bank is invited to paragraph 22 of the audit report of the Assistant Registrar wherein he makes certain recommendations for consideration by the Bank.

Firstly, the Registrar believes that the time has arrived for the reduction of the rate of interest charged on loans by the Madras Central Bank or, what would be a preferable alternative, for allowing a rebate on interest to those societies which are punctual in repayment of principal or payment of interest.

Secondly, the Bank is advised to charge interest on its loans from day to day instead of treating a fraction of a fortnight as a full fortnight for calculation of interest.

Thirdly, the extra charge of one anna, on registered and insured transactions, over and above the actual cost of transmission, might certainly be given up.

Fourthly, the question of allowing a higher interest than 5 per cent. on reserve funds of societies, lodged in the Central Bank, merits consideration.

Fifthly, the Registrar would press again on the Central Bank the question of entertaining one or more enquiring officers. He has read carefully the objections to this proposal contained in the remarks of the President of the Bank at the shareholders' meeting, dated 7th September 1912. At present the Registrar and his staff conduct the whole series of enquiries necessary to safeguard the investments of

the Central Bank in the mofussil and the main objection entertained by the Bank to the proposal that it should share with Government the cost of the enquiries is that the Bank's transactions extend over a very large area. The larger the area and the greater the number of societies financed by the Bank, the greater must be the cost of the enquiries and the Bank desires that for many years to come Government should continue to bear the increasing cost. This argument is hardly tenable considering that the Bank is yearly accumulating a large surplus after paying a dividend of 12 per cent. As regards the argument that the Bank's officers would have no power to inspect the accounts of societies, it would be for Government and the Registrar to invest the officers with the necessary powers. The Registrar would draw the attention of the Bank to the statement of the Registrar in Bombay in his last Annual Report that the newly organized Central Bank in that Presidency did entertain an enquiring officer for part of the area served by it. If the Madras Central Urban Bank still considers that it cannot afford to employ its own inspectors, it might at least offer a larger commission than it actually does to those District Banks which are prepared to look after the security of its investments.

5. The Registrar is in a position to offer the above suggestions because the Bank has an assured position as a successful and popular institution and any measure tending to increase the Bank's popularity without entailing loss to its shareholders in the shape of diminished dividends will, he hopes, be welcomed by the Bank. It is for the Bank to consider how it shall maintain the unique success already attained by it, a success which makes in no small measure for the success of the Co-operative movement in the Madras Presidency. The Registrar desires, in conclusion, to congratulate the Directorate and the administrative staff of the Bank on the termination of another prosperous year and hopes that its prosperity will continue to increase.

Office of the Registrar of Co-operative Societies,
Chepauk, Madras, 21st September 1913.

L. D. SWAMIKANNU,
Registrar.

AUDIT REPORT OF No. 19, MADRAS CENTRAL URBAN BANK, LIMITED, FOR THE YEAR 1912–1913.

With reference to your No. 85/B., dated 11th April 1913, deputing me to audit the accounts of the Madras Central Urban Bank, Limited, No. 19, I have the honour to submit the following report on the working of the Bank for the year ending with the 30th June 1913.

2. The Bank had at the beginning of the year 324 members. There were ten admissions in the year, of whom one was brought in as representative in interest of a member who had died and nine were admitted as transferees. There were 25 removals, one of which was on account of death and the remaining 24 transferred their shares.

3. The share capital at the end of the year was Rs. 2,00,000. A sum of Rs. 50 was refunded during the year to the representative in interest of a member who had died after paying the first call of the new share worth Rs. 100.

4. *Fixed deposits.*—The Bank held at the beginning of the year fixed deposits from members and non-members of Rs. 18,26,359–11–1 as against Rs. 12,94,936–6–0 in 1911–1912. The Bank received from members and non-members fixed deposits of Rs. 10,07,511–0–3 as against Rs. 20,23,543–5–6 in the previous year and the total liability was Rs. 27,13,659–11–4. The Bank paid off during the year Rs. 9,40,471–3–3 as against Rs. 14,01,874–0–0 in the previous year, leaving an outstanding amount of Rs. 18,73,188–8–1.

Current.—The Bank had current account transactions with the Bank of Madras. The sum outstanding at the beginning of the year was Rs. 60,818–9–6. The amount received during the year was Rs. 14,12,542–13–7 against Rs. 14,10,520–12–3 in 1911–1912 and the amount paid off during the year was Rs. 14,60,078–6–0 against Rs. 14,36,418–0–7 in the previous year. There was an outstanding liability of Rs. 49,281–3–1 at the end of the year.

Current deposits.—The current deposits of members and non-members outstanding at the commencement of the year was Rs. 1,04,120–15–0. During the year Rs. 13,53,787–9–0 were received as against Rs. 7,96,508–7–10 in the previous year and Rs. 13,37,296–1–10 were paid off during the year as against Rs. 8,85,447–8–10 in the previous year. There was thus a liability of Rs. 1,20,612–6–2 at the end of the year. A sum of Rs. 57,685–13–1 was issued as overdraft to members.

Recurring deposits.—This is a new item of deposits opened during the year for the benefit of small depositors for 24 months, 60 months and 48 months, Bank undertaking to pay at the end of the period Rs. 25–4–0, Rs. 56–8–0 and Rs. 63, respectively, in return for monthly deposits of one rupee each. The amount received under this head is Rs. 1,270

Provident deposits.—The establishment of the Central Bank is permitted to contribute to a Provident Fund, created by the Directorate, at the rate of one anna in the rupee of the salary paid to the members of the higher establishment and at the rate of 6 pies in the rupee on salaries paid to the menial staff. The Bank contributes one anna in the rupee for the former and 1½ annas in the rupee for the latter. The deposits obtained during the current year were Rs. 452–13–6, carrying 6 per cent. interest.

Indian Bank.—The Bank has an overdraft of Rs. 25,000 with the Indian Bank, of which Rs. 5,000 were paid and the balance, Rs. 20,000, is still due to the Indian Bank.

Reserve funds of societies.—The amount of reserve funds of societies was Rs. 1,51,196-4-6. Thus the total liability of the Bank at the end of the year under deposits and overdrafts was Rs. 22,10,611-3-6.

5. The Bank pays interest varying from 2½ to 6½ per cent. per annum on deposits and other borrowings raised by it.

The Bank received during the year Rs. 673-13-3 as penal interest as against Rs 581-13-5 in the previous year and Rs. 449-14-0 as against Rs. 759-11-6 in 1911-1912 as remittance charges for covering expenses incurred on account of insurance, registration and money order commission. The transfer of shares brought in a revenue of Rs. 59. I shall add a few remarks later on about the remittance charges.

Personally I should think that the numerical strength of the establishment is not excessive though it is debatable how far a progressive scale of pay is necessary for some mechanical hands. But considering the demand for skilled men in banking concerns elsewhere, the scale of pay sanctioned may probably not be regarded by some as exceeding the resources of the Bank.

13. The contingent charges amounted to Rs 3,063–7–0 against Rs. 6,870–8–0 (1911–1912), of which Rs. 1,060 was the Directors' sitting fees as against Rs. 675 in the previous year. They are—

14. The Bank purchased furniture at a cost of Rs. 112–7–6. The net value of furniture at the end of the year was Rs. 795–7–6; a sum of Rs. 139–4–0 has been written off as depreciation and Rs. 656–3–6 is left as the net value of the property for next year.

15. The net profit of the Bank amounted to Rs. 56,096–4–7, out of this, under by-law No. 17, three-eighths, *i.e.*, Rs. 10,533–13–9, has to be carried to the credit of the reserve fund and the balance Rs 32,556–8–10 is available for distribution as bonus, dividend or otherwise as may be decided at the general meeting. Besides a sum of Rs. 1,676–13–11 is available for distribution out of the profits of the previous years.

16. The amount of reserve fund of the Bank on the last day of the penultimate year was Rs. 20,000. Last year's audit order sanctioned a sum of Rs. 10,634–6–3 and the Bank added Rs 1,365–9–4 out of its profits. The total amount to the credit of the Bank as reserve fund is Rs. 42,000. The amount to be credited to the reserve fund this year is Rs 10,533–13–9. The total amount available as reserve fund up to 30th June 1913 will be Rs. 61,633–13–9. If the bank allows Rs. 468–2–3 out of the profits, the reserve fund will be Rs. 62,000. (I understand the Central Bank has sent Rs. 20,000 to the Madras Bank anticipating the audit order.)

17. During the year one general and 21 Directors' meetings were held, of which none was adjourned for want of quorum.

18. Each Director gets a fee of Rs. 10 per meeting and the accounts of the Bank are audited by a member of the Board of Management who gets a remuneration of Rs. 250 per annum.

19. The Bank is popular in that it attracts deposits and the shares are very much valued as the members get a dividend and bonus of 12 per cent. besides loans at cheap rates. I am making suggestions to ensure its popularity among its clients.

20. The accounts are well kept and a few minor errors noticed were rectified before the end of the year. I note separately some recommendations in regard to account keeping.

21. The Secretary and his assistant have been energetically keeping up the efficiency of the institution and the management of the Bank's affairs has been excellent.

22. Before concluding, I wish to bring to the notice of the Registrar and the Bank's management the following facts for consideration :—

(1) The levy of a fee of one anna on all registered and insurance transactions sent to societies over and above the required cost of transmission. During the year this was charged on some and not on others. Apparently the management has recently decided to charge on all such transactions. It will add to the popularity of the institution among its clients if this *tax* is abolished.

(2) Rebate of interest on loans returned is not allowed unless the sum returned is Rs. 50 or a multiple of Rs. 50. This works as a hardship in cases of loans below Rs. 500 where the instalment returnable in each year falls below Rs. 10. I fail to see any justification for the procedure now, though the rule may have been justifiable at an earlier stage to reduce the clerical labour.

(3) Loans issued before 16th and 30th of a month bear interest from the 1st and 15th respectively of that month. This system results in the crowding of transactions on the 15th and 30th of each month to ensure the maximum abatement of interest. The societies feel it a hardship when they have to pay interest for the full fortnight and when they lose the rebate for broken periods of a fortnight. The rule seems to have been introduced at a stage when the clerical staff was meagre. I find no other ground of justification for the adoption of this rule. I think the rule may be rescinded. If such a course is adopted, it will enhance the popularity of the institution among its clients. On the other hand members borrowing from the Bank are allowed the privilege of paying interest from day to day and they do not suffer such losses.

(4) Interest on the reserve fund of societies is allowed at 5 per cent. This is a standing deposit and the management is not put to any worry in regard to its management. By virtue of a direction from the Registrar, that the reserve of a society should be kept apart from its transactions, the money has to be lodged in some other institution and is now put in the Central Bank. The amount under this head is not a negligible quantity as it amounts to Rs. 1,51,196. The profits obtainable from the investment of the reserve fund in a village bank will be Rs. 7½.

The Central Bank might be satisfied with 1½ per cent. and surrender 6 per cent. to the societies as the Central Bank gets the deposit almost compulsorily from the societies and as the trouble in regard to its management is not more onerous than the deposits it receives at 6 per cent. from the general public. This is another cause for bitterness which the societies have felt and expressed themselves year after year and if this is removed the Bank will become still more popular.

STATEMENT OF OBJECTS AND REASONS

On the 18th September 1912, Mr. Dadabhoy, who was then a Member of the Imperial Legislative Council, introduced in it a Bill for the protection of women and girls and other purposes. That Bill was circulated for the opinion of Local Governments, whose reports were duly received, and in the light of them it is considered that, while Mr Dadabhoy's measure, in the form in which it was introduced, is not altogether suitable, nevertheless the degree of acceptance which has been accorded to the principle underlying it, namely, the desirability of strengthening the law, safeguarding minor girls and of affording some facilities for the rescue of children from undesirable surroundings, justifies a cautious advance in this direction, which is the object of the present Bill to effect. Apart from a minor amendment to section 552 of the Criminal Procedure Code, the clauses of the Bill fall within two main categories: firstly, those which are designed to remedy defects which have been shown to exist in the working of sections 372 and 373 of the Indian Penal Code; and secondly, those which prescribe an optional procedure by which minor girls may be removed from improper guardianship under the orders of a magistrate. The purport of the principal clauses is noted below.

Clause 2.—The amendment is designed to make it clear that an offence is committed under section 372 or 373 of the Indian Penal Code, when the minor is either disposed of or procured for the purpose of being sexually known either before or after attainment of the age of sixteen, and whether she is made over to a life of immorality or merely subjected to an isolated act of carnal intercourse. In either case, the child is equally deserving of protection.

Clause 3.—The first explanation declares the presumption that if a minor girl is disposed of to a common prostitute, the person so disposing of her shall have done so with the improper intent mentioned in section 372 of the Indian Penal Code.

The second explanation defines the offence of illicit sexual intercourse as sexual intercourse which is not sanctioned by law or custom. It has been pointed out by several Local Governments that irregular sexual relationships prevail in certain localities which, while falling short of legal marriage, are recognized as practically equivalent to it, and do not demand the special protection of any girl affected by them; these it is proposed to exempt from the operation of the Bill.

Clause 4.—The amendment is consequential to the first explanation added by clause 3.

Clause 5.—The age limit in section 552 of the Criminal Procedure Code, under which a magistrate may compel the restoration of abducted females, is fourteen. It is thought that an additional measure of protection can safely be afforded by the enhancement of this age to sixteen.

Clause 6.—The amendments to sections 372 and 373 of the Indian Penal Code mentioned above provide for the punishment of those who dispose of or procure children with improper intent; the provisions of clause 6 *et seq.* are supplementary in that they deal with the rescue of the children themselves from surroundings in which they are likely to be exposed to moral risk. The clause empowers a presidency or district magistrate, either on private complaint or of his own knowledge or suspicion, after inquiry, to direct the removal of minor girls until the age of majority from the custody of undesirable guardians (including a mother, unless the latter can show that she has taken steps to protect her daughter from physical and moral contamination), if prostitution or seduction is likely to result, provided that the magistrate is satisfied that proper arrangements can be made for the care of the child, preferably with a person of the same religion. No such order may be made, however, if an order of a competent Civil Court appointing a guardian of the person of the minor is in force. Power is further taken to cancel or vary an order or to attach conditions to the custody of the child, and discretion is given to the magistrate to direct the payment of reasonable maintenance of the child by the person liable for its support. Lastly, protection is given to those to whose custody children may be made over in these circumstances, though the subsequent order of a competent Civil Court appointing a guardian shall discharge the order of the magistrate making the child over to any other custody.

STATEMENT OF OBJECTS AND REASONS.

In accordance with the recommendations of the Royal Commission on Decentralization a general Delegation Bill, providing with certain safeguards for the delegation by notification to a lower authority of powers and duties vested by law in a higher authority, was introduced in the Imperial Legislative Council on the 22nd September 1911. It was eventually decided, however, to abandon that Bill, and to substitute for it a Decentralization Bill accompanied by schedules indicating precisely the delegations of powers which it is proposed to effect in particular Acts. The draft Bill is confined to Acts of the Imperial Legislature, and provincial Acts will be left to be dealt with in local Decentralization Bills. The Schedule to the Bill shows the nature of the amendments contemplated in Acts of the Imperial Legislature of general or local application.

2. So far as enactments dealing with revenue and cognate matters are concerned, it is proposed to legislate in two directions. The first is in the substitution of the control of the Governor General in Council for his sanction in connection with the framing of rules, or in the elimination of control, where such control is considered unnecessary. The sections and Acts affected are :—

The Northern India Canal and Drainage Act, 1873 (VIIf of 1873), Section 75; The Chota Nagpur Incumbered Estates Act, 1876 (VI of 1876), Section 16; The Destruction of Records Act, 1878 (III of 1879), Section 5; The Land Improvement Loans Act, 1883 (XIX of 1883), Section 10; The Agriculturists' Loans Act, 1884 (XII of 1884), Section 4; The Punjab Tenancy Act, 1887 (XVI of 1887), Sections 51 (3), 68 (1) and 106; The Punjab Land-revenue Act, 1887 (XVII of 1887), Section 165; The Land Acquisition Act, 1894 (I of 1894), Section 55; The Ajmere Irrigation Regulation, 1887 (VIII of 1887), Section 4; The Coorg Land and Revenue Regulation, 1899 (I of 1899), Section 60.

The second direction in which legislation is contemplated is in the delegation to a lower agency of certain powers which are at present vested in the Government of India, in a Local Government or in a specified subordinate authority. The sections and Acts affected are :—

The Bengal Land-revenue Sales Act, 1859 (XI of 1859), Sections 19, 26, 32 and 48; The Waste-lands (Claims) Act, 1863 (XXIII of 1863), Sections 4, 5, 6, 10, 22 and 23; The Burma Boundaries Act, 1880 (V of 1880), Sections 28 and 32; The Land Improvement Loans Act, 1883 (XIX of 1883), new Section 11; The Agriculturists' Loans Act (XII of 1884), Section 4; The Punjab Land-revenue Act, 1887 (XVII of 1887), Sections 7 (*1*) and 113 (*2*); The Revenue Recovery Act, 1890 (I of 1890), Section 3 (*3*).

3. The reasons for the more important delegations of powers proposed in other Acts are indicated below :—

The Calcutta Pilots Act, 1859, Section 17.—The Bengal Pilot Service is under the immediate control of the Local Government, and, apart from cases in which the general right of appeal to the Government of India is involved, the latter exercises no control, in practice, over the Service in matters affecting discipline. It is therefore proposed to dispense with the provision requiring the previous sanction of the Government of India to the preparation of a schedule of punishments for offences committed by members of the Service.

The Police Act, 1861, the Schedule, Part I; Section 2 and the Madras District Police Act, 1859, Sections 5 and 6.—These delegations will obviate the necessity for a reference to the Government of India except when financial rules require it.

The Madras Civil Courts Act, 1873, Sections 5 and 6.—These delegations will enable the Local Government, within the limits of their financial powers, to add to the number of district courts, subordinate judges and munsifs, without reference to the Government of India. *Section 53.*—The High Court is in the best position to say whether the powers in question can safely be granted or not.

The Northern India Canal and Drainage Act, 1873.—It is no longer considered necessary that a Local Government should, as required by section 65 of the Northern India Canal and Drainage Act, obtain the sanction of the Governor General in Council before requisitioning labour for annual silt clearances from canals.

The Sea Customs Act, 1878.—The delegations which it is proposed to make or intended to increase the powers at present exercised by the Chief Customs authorities and the Chief Customs Officers at the various ports. They will considerably shorten Customs procedure and will tend to the more expeditious despatch of public business at the Customs-houses. Most of the delegations proposed were suggested by the maritime Local Governments and have been accepted after careful consideration by the Government of India.

The Cotton Duties Act, 1896.—The above remarks apply also to the delegations which it is proposed to make under this Act.

The Oudh Civil Courts Act, 1879, Section 7.—This delegation will enable the United Provinces Government to appoint additional Judges within the limits of its financial powers, without reference to the Government of India. *Sections 17 and 24.*—The Judicial Commissioner is in the best position to say whether the pecuniary jurisdiction of a munsif or a subordinate judge should be raised.

The Indian Income Tax Act, 1886.—The amendment to the Income Tax Act now proposed gives Local Governments the option of delegating certain powers now exercised solely by them to the Board of Revenue or the Financial Commissioner, as the case may be. The points covered relate chiefly to minor matters of procedure in relation to publication and notice, and to recovery of arrears. It is proposed also to allow delegation to the Chief Revenue Authority of power to sanction prosecutions on behalf of the Local Government. In a province which may possess neither a Board of Revenue nor a Financial Commissioner, the delegations contemplated may be to such authority as the Local Government declares to be the Chief Revenue Authority for the province.

The Provincial Small Cause Courts Act, 1887, Sections 5 (1) and 8 (1).—These delegations will enable Local Governments to establish Courts of Small Causes and to appoint additional Judges to such courts within the limits of their financial powers, without reference to the Government of India.

The Bengal, Agra and Assam Civil Courts Act, 1887, Sections 4 and 5.—Local Governments will be able to alter the number of subordinate judges and munsifs within the limits of their financial powers, without reference to the Government of India. *Sections 13, 25 and 34 (1).*—A permissive power of delegation to the High Court is provided, so as to give the Local Governments a free hand in the matter.

The Inland Bonded Warehouse Act, 1896.—It is proposed to dispense with the previous sanction of the Governor General in Council to the rules made by Local Governments under section 7 of this Act. The provisions of sections 5 to 7 of the Act have up to the present been extended to the Presidency of Bengal and the province of Bihar and Orissa only; and the rules under section 7 relate purely to matters of detail with which the Local Governments concerned are fully competent to deal on their own authority.

The Indian Stamp Act, 1899.—The first of the proposed amendments to the Indian Stamp Act empowers the Collector to refund the penalty paid under sect on 58 (1) of his own motion without reference to the Chief Controlling Revenue Authority. The second delegates to Local Governments the powers, at present possessed only by the Governor General in Council, to make rules governing the powers of the Collector to make allowance for spoiled stamps. The third amendment empowers the Chief Controlling Revenue Authority to delegate to Collectors the power, conferred on the former by section 51, of making allowance in the case of printed forms no longer required by corporations. The fourth amendment is on lines similar to those followed in the proposed amendment of the Indian Income Tax Act, and authorizes, as regards certain incidental matters of administrative procedure, the delegation of powers now exercised by Local Governments to the Chief Revenue Authority, and of powers at present exercised solely by the latter to a suitable subordinate authority.

The Lower Burma Courts Act, 1900. Section 23.—This will give the Local Government powers which other Local Governments exercise without the intervention of the Governor General in Council.

The Indian Mines Act, 1901, Section 80 (1).—It is proposed to dispense with the previous sanction of the Governor General in Council to the issue of rules by Local Governments, but to retain a general control under which the Governor General in Council can require Local Governments to submit, for his approval, rules regarding minerals of special importance. *Section 23.*—The power of exempting mines from the operation of the Act may be suitably exercised by Local Governments who are in a better position to judge of the merits of application for exemption.

The Cantonments (House Accommodation) Act, 1902.—As at present drafted section 10 (1) of the Cantonments (House Accommodation) Act, II of 1902, provides that the power to allow the occupation of houses in any cantonment or part of a cantonment in which the Act has been declared to be operative, for the purposes of a hospital, bank, hotel, shop or school, or by a railway administration, shall be exercised by the Officer Commanding the Division, after the concurrence of the Local Government has been obtained. It is considered desirable that the concurrence of the Divisional Commissioner should be substituted for that of the Local Government.

The Indian Registration Act, 1908, Sections 5, 12, 13 (2) and 18 (3).—The proposed delegations to the Inspector General of Registration under sections 6 and 13 (3) will save time and unnecessary correspondence with the Local Government. Consequential amendments are proposed in sections 12 and 13 (2). *Sections 14 and 73.*—It is considered sufficient for the Governor General in Council to retain merely a power of control in these matters, which are mainly of local interest.

The Indian Emigration Act, 1908, Sections 11 and 102.—It is considered that the powers exercised by the Government of India to authorize the payment of special fees to Emigration Agents and to determine probable length of voyages for the purposes of the Act, should be delegated to Local Governments. It is proposed to amend sections 50–53 to enable the Protector of Emigrants to grant licenses to masters of vessels to carry emigrants. It appears unnecessary to require the orders of the Local Government for the issue of such licenses.

The Upper Burma Ruby Regulation, 1887, Sections 4 and 5 (2) and (3).—As the Regulation is of local application only, it is considered that the rule-making powers conferred by section 4 on the Local Government should be exercised by it without a previous reference to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

The development of the use of motor vehicles as the result of the increasing number of persons who seek to travel by this means both within and outside the limits of individual provinces, has emphasised the desirability of re-examining the Indian legislation on the subject. At present the law is contained in six separate provincial Acts,* which, though exhibiting no important differences of principle, are not identical in form. In the interests of simplicity, and in order that owners of motor cars may be saved the inconvenience of reference to different provincial Acts, it is thought that the time has now come when the law on the subject may usefully be consolidated.

* Madras Act I of 1907.
Bombay Act II of 1904
Bengal Act III of 1903.
The United Provinces Act II of 1911.
The Punjab Act II of 1907.
Burma Act II of 1906.

2. The present Bill has accordingly been drafted with the intention of introducing uniform provisions on important matters of principle and embodying the best local features in the different existing Acts, while, so far as possible, avoiding any substantial departure from the several provincial Acts which it will replace. Subsidiary matters will still be governed by local rules suitable to the varying conditions of different provinces, but under the procedure of one general Act it is probable that such regulations will be framed on more uniform lines than is at present the case. In particular, power is conferred to grant licenses valid in more than one province, provided they are issued in accordance with such conditions and restrictions as the Governor General in Council may prescribe. The object of the Bill, in short, is to promote the convenience of motorists and to give increased facilities for motor travel. The Motor-Vehicles International Circulation Act, 1912 (XII of 1912), was the first step in this direction, and its provisions are re-enacted in the present Bill.

3. The following are the more noticeable provisions of the Bill :—

Clause 1.—As regards the extent of the Act, Part III, which deals with licensing and control, has been extended in the first instance only to those provinces in which or in parts of which such provisions already exist, but it will be open to other Local Governments to notify its extension within their jurisdiction, while under *clause 14* they can similarly exclude specified areas from its operation.

Clause 3.—Prohibits the driving of motor vehicles by persons under 16 years of age; the English law prescribes an age limit of 17 years in the case of drivers of ordinary motors, with a lower limit of 14 in the case of motor cycles. It is considered that the complication of two limits may usefully be avoided by the adoption of a general minimum which the circumstances of this country would appear to justify.

Clauses 4 and 5.—These clauses are intended to afford the protection to the public everywhere against reckless and inconsiderate driving to which it would appear to be entitled.

Clause 7.—Provides for a licensing system in those provinces to which this part of the Act applies, although it will be observed that a person receiving instructions in driving, subject to any rules made in this behalf, is exempt from this requirement.

Clause 10.—Enables licenses to be granted with validity beyond the province in which they are granted, while reserving power to the Governor General in Council to regulate the grant of such licenses.

Clause 11.—Confers a rule-making power upon Local Governments on the different points which the examination of the various provincial Acts indicates as actually arising in practice.

Clauses 15 and 16.—Follow the Motor-Vehicles International Circulation Act, 1914.

Clause 17.—Confers a power of arrest without warrant which is a necessary condition of the efficient regulation of traffic of this description.

Clause 18.—Limits the trial of offences under the Act to Courts not inferior to those of a Presidency Magistrate or a Magistrate of the second class.

Clause 19.—Empowers the Local Government to cancel or suspend any license, or to declare any person disqualified for obtaining a license, thus protecting the public against incompetent or unsuitable drivers. A Court, trying the holder of a license for any offence under the Act, may also suspend the license pending the termination of the proceedings.

Clause 20.—Repeals the Motor-Vehicles International Circulation Act, 1912, and the different existing provincial Acts on the subject of motor vehicles.
